

OR

PTA is not available but the person has a significant brain imaging abnormality

AND

Is there at least one Functional Independence Measure (FIM) item scored 5 or less as a result of the brain injury (or for a child a WeeFIM item scored 2 or less than the age norm as a result of the brain injury)?

FIM
attached?

Yes

Yes

No

No

Do not have access to FIM accredited assessor and require FIM assessment by LSA

Less than 3 years old (This must be completed by a Paediatric Rehabilitation Physician/Specialist)

The child will likely have permanent impairment resulting in a significant adverse impact on their normal development

Please provide reasoning as to how you formed your opinion:

Spinal cord injury

Permanent sensory / motor deficit / bladder dysfunction / bowel dysfunction

Neurological (SCI) level	ASIA impairment scale (Please supply ASIA scoresheet)	ISAFSCI scores
--------------------------	---	----------------

Amputations

The injury results in an amputation or the equivalent impairment of the following type:

1) Brachial plexus avulsion or rupture equivalent to a single forequarter amputation	Left	Right
---	------	-------

2) Single

Single forequarter amputation or shoulder disarticulation	Left	Right
---	------	-------

OR

Single amputation of the lower limb through or above 65% of the femur	Left	Right
---	------	-------

3) Multiple Amputations – there is more than one of the following amputations of the upper/and/or lower limbs

Please select at least two from below:

At or above 50% of the tibia (lower limb)	Left	Right
---	------	-------

At or above the first metacarpophalangeal joint of the thumb and index finger of the same hand	Left	Right
--	------	-------

Burns**Aged 16 and under:**

The child has full thickness burns to at least 30% of the body, or full thickness burns to the hands, face or genital area, or permanent inhalation burns causing long-term significant respiratory impairment.

Aged Over 16:

Full thickness burns to at least 40% of the body, or full thickness burns to the hands, face or genital area, or permanent inhalation burns causing long term significant respiratory impairment.

AND

Is there at least one Functional Independence Measure (FIM) item scored 5 or less as a result of the burn injury (or for a child a WeeFIM item scored 2 or less than the age norm as a result of the burn injury)?

FIM attached?

Yes

Yes

No

No

Do not have access to FIM accredited assessor and require FIM assessment by LSA

Note: A FIM score for burns injury is only required if this certificate is supporting an application for lifetime participation in the Scheme

Permanent Blindness

The injured person is legally blind

Visual acuity on the Snellen Scale after correction by suitable lenses is less than 6/60 in both eyes; or

Field of vision constricted to 10 degrees or less of arc around central fixation in the better eye irrespective of corrected visual acuity (equivalent to 1/100 white test object); or

A combination of visual defects resulting in the same degree of visual loss as that occurring in (a) or (b) above.

Please sign the declaration overleaf

Declaration

I declare that I am a medical specialist experienced in the injury type described above, I have examined the injured person and to the best of my knowledge the above injuries are consistent with the motor vehicle accident as reported to me, or are consistent with the trauma that may arise out of a motor vehicle accident.
